RECAPITULATION OF GREEN COFFEE STOCKS IN THE MAJOR COFFEE PORTS OF EUROPE

EUROPEAN
COFFEE
FEDERATION

Introduction

The European Coffee Federation provides on a monthly basis a recapitulation of green coffee stocks in the major coffee ports of Europe.

Having Europe not only as the largest coffee market in the world, but also as the largest coffee manufacturer, it seems relevant to be informed of the amount of green coffee physically stocked in EU Ports. The European stock coffee data aim to provide an accurate picture of the amount of coffee stocked in Europe.

We would like to thank the organisations for sharing their data, as they are directly contributing to the transparency of the market, essential to guarantee a direct link between producers, manufacturers and consumers. Their contribution is invaluable and has enabled this series to develop into a unique and convenient single source of information on the European stock data. The reports offer an overview of the historic trends and represent an important tool when analysing and understanding market behaviour. For ease of comparison, the monthly statistics are compiled into an annual report at the end of each calendar year. The statistics are available only in electronic format on the ECF website.

Disclaimer: The European Coffee Federation pays a great deal of attention to the accuracy of the provided statistics assuming no responsibility for the input provided by the organizations sharing their data. Nevertheless, should you find any errors or incorrect information please let us know. Thank you.
